Engineering and Research

ICE IN THE ENVIRONMENT

VOLUME THREE

Edited by Vernon Squire and Pat Langhorne
University of Otago, Dunedin, New Zealand

Proceedings of 16th International Symposium on Ice
Dunedin, New Zealand, 2–6 December 2002

Available from
Department of Physics
University of Otago
PO Box 56
Dunedin
New Zealand

ISBN 1-877139-52-1
Cover pictures by John Douglas and Pat Langhorne
Cover designed by Peter Scott

International Association of Hydraulic Engineering and Research

Printed at the University of Otago, New Zealand

Table of Contents – Volume 3

RIVER ICE PROCESSES AND ENGINEERING

Preventive measure against freezing within a fishing port	1
T. Ueda, S. Yokoyama, A. Nagano and H. Saeki	

Water temperatures and ice conditions downstream the Alta hydropower reservoir with different intake levels.	8
R.P. Asvall	

Water temperatures in the Alta hydropower reservoir with different intake levels	14
A.S. Kvambekk	

A laboratory study on freezeup ice runs in river channels	22
L. Hammar, H.T. Shen, K.-U. Evers, T. Kolerski, Y. Yuan and L. Sobczak	

ICE ECOLOGY AND MANAGEMENT

Copepods in Arctic pack ice and the underlying water column: living conditions and exchange processes	30
I. Werner, K. Meiners and H. Schünemann	

TERRESTRIAL ICE PROCESSES

Effect of spring warming on dissolved oxygen content in a shallow ice covered lake	41
O.A. Maher	

Deformation structures in cold basal ice: insights into subglacial glaciotectonic processes	48
S. Fitzsimons and P. Sirota	

GLOBAL CLIMATE CHANGE AND ICE COVERED WATERS

Sensitivity of Great Slave Lake ice phenology to climate change	57
P. Ménard, C.R. Duguay, F.C. Pivot, G.M. Flato and W.R. Rouse	

Trends in river-ice breakup and related temperature controls	64
T.D. Prowse, B.R. Bonsal and M.P. Lacroix	

Impacts of climate change on global sea ice	72
B. Fitzharris and T. Prowse	

Long-term characteristics of ice events and ice thickness on the largest lakes and reservoirs of Russia	80
V.S. Vuglinsky, T.P. Gronskaya and N.A. Lemeshko	

ICE MECHANICS AND SCALE EFFECTS

An analysis of amplitude and period of alternating ice loads on conical structures 87
Li Feng and Yue Qianjin

Method of determining a geophysical-scale sea ice rheology from laboratory experiments 94
D. Feltham, P. Sammonds and D. Hatton

Preliminary observations of the creep behaviour of in situ sea ice beams 100
M.A. Gribble and P. Langhorne

Ice event on an artificial island in the Caspian Sea 107
D.C. Mayne, E.M. Lemee and M. Metge

Multiple equilibrium Arctic ice cover states induced by ice mechanics 114
W.D. Hibler III and J.K. Hutchings

On physical and mechanical properties of the ice in Harbin Reach of Songhua River 124
Qinnian Lu, Jinping Ou and Changhai Wang

Ice pressure measurement under flowing conditions on Harbin Reach of Songhua River 129
Zhenwu Shi, Zhenkai Wang, Qinnian Lu and Yan Xin

ICE RIDGING

Ice effects on beach territory of park at coast of the Finnish Gulf 135
M. Gladkov, G. Tregub and I. Shatalina

Simulating of ridge keel behaviour in direct shear and punch tests by discrete element method 143
E.B. Karulin and M.M. Karulina

ENVIRONMENTAL CONCERNS IN ICE-INFESTED WATERS

Sea ice contamination: a review 152
M.A. Lange

GROWTH AND DECAY PROCESSES OF SEA ICE

Operational modeling of the autumn ice advance in the Barents Sea 163
T. Maksym, L. Toudal, M.D. Coon and M.L. Van Woert

Laboratory investigations into platelet ice formation 171
I.J. Smith, A.J. Gow and P.J. Langhorne

ATMOSPHERE-ICE-OCEAN INTERACTIONS

Aggregate-scale partitioning of solar radiation in Arctic pack ice 178
D.K. Perovich

Effects of data assimilation of ice motion in a basin-scale sea ice model 186
T.E. Arbetter, A.H. Lynch, J.A. Maslanik and W.N. Meier

Changes of radiation properties and heat balance with sea ice growth in Saroma Lagoon and the Gulf of Finland 194
N. Ishikawa, A. Takizawa, T. Kawamura, K. Shirasawa and M. Lepparanta

AUTONOMOUS MEASUREMENTS

Observations of sea ice using a low-cost unpiloted aerial vehicle 201
J. Maslanik, J. Curry, S. Drobot and G. Holland

A calibration procedure for ship-borne EM31 sea ice thickness measurements 207
J.E. Reid, B. Kimber and A. Worby

Evaluation of Arctic operational passive microwave products: A case study in the Barents Sea during October 2001 213
W.N. Meier, T. Maksym, and M.L. Van Woert

Ice environmental data collection for the North Caspian Sea 223
G. Comfort, M. Metge, A. Liddiard and P. Vincent

ICE CRUSHING

Dynamic ice forces caused by crushing failure 231
Yue Qianjin, Xiangjun Bi, Xi Zhang and T. Karna

Can dynamic recrystallization and bulk pressure melting explain characteristics of ice crushing? 238
R.E. Gagnon

Ice damage and layer formation: in small-scale indentation experiments 246
P. Barrette, J. Pond and I. Jordaan

ADDITIONAL ABSTRACTS OF PRESENTED PAPERS AND ABSTRACTS 254

DISCUSSION 281

Symposium 283
Ice Crushing Workshop 334

LIST OF PARTICIPANTS
