ICE IN THE ENVIRONMENT

VOLUME TWO

Edited by Vernon Squire and Pat Langhorne
University of Otago, Dunedin, New Zealand

Proceedings of 16th International Symposium on Ice
Dunedin, New Zealand, 2–6 December 2002
Table of Contents – Volume 2

ICE RIDGING

Small-scale plane strain punch tests 1
E. Lemée and T. Brown

Review of ridge failure theories after analysing results from Confederation Bridge 8
E. Lemée and T. Brown

Rubble-ice loads generated by cable-moored conical platform: ice-tank tests 16
R. Ettema and W. Nixon

Ice pressure ridge impacts on oil spills in the Alaskan OCS 23
F.G. Bercha and M. Cerovšek

Emergency evacuation of installations in Arctic ice conditions 32
F.G. Bercha

The compressive strength of consolidated parts of ice ridge model 40
Y. Matsuo, Y. Yasunaga, S. Kioka, H. Saeki and A. Nagano

Processes of ice scour event and control method of test conditions 47
S. Kioka, Y. Yasunaga, Y. Matsuo, A. Kubouchi and H. Saeki

Size of the consolidated part of a hummock 56
I. Shatalina

The strength of the unconsolidated layer model of ice ridge 62
Y. Yasunaga, S. Kioka, Y. Matsuo, A. Furuya and H. Saeki

What is the maximum pile-up height for ice? 69
G.W. Timco and A. Barker

A model of ridge buildup 78
A. Makshtas and A. Marchenko

Medium scale modelling of ice ridge scouring of the seabed, Part I: Experimental setup and basic results 86
P. Liferov, S. Løset, P.O. Moslet, B. Bonnamera and K.V. Høyland

Medium scale modelling of ice ridge scouring of the seabed, Part II: Consolidation and physical properties 94
K.V. Høyland, P. Liferov, P.O. Moslet, S. Løset and B. Bonnamera

On analysis of punch tests on ice rubble 101
P. Liferov, A. Jensen, K.V. Høyland and S. Løset
ENVIRONMENTAL CONCERNS IN ICE-INFESTED WATERS

Laboratory study of oil spreading in broken ice  110
J. Gjøsteen and S. Løset

On the analysis of oil spreading in broken ice  120
J. Gjøsteen and S. Løset

Spreading of oil under ice covers: effects of bottom roughness of ice  128

Theory and modeling of the interfacial tension force on the oil spreading under ice covers  134
A. Konno and K. Izumiyama

Experimental study on spreading of oil spilled among pack ice  142
N. Otsuka, K. Ogiwara, K. Kanaami, S. Takahashi and H. Saeki

GROWTH AND DECAY PROCESSES OF SEA ICE

A twin wave tank pancake ice growth experiment  150
K.-U. Evers, H.H. Shen , M. Dai, Y.Yuan, T. Kolerski  and J. Wilkinson

Wave-ice interaction during ice growth: the formation of pancake ice  158
S.F. Ackley, H.H. Shen, M. Dai and Y. Yuan

Study of brackish ice in the Gulf of Finland  165
T. Kawamura, M.A. Granskog, J. Ehn, T. Martma, A. Lindfors, N. Ishikawa,
K. Shirasawa, M. Leppäranta and R. Vaikmäe

Chemical processes during formation of brackish water ice in the Baltic Sea  172
M.A. Granskog, J. Ehn, K. Virkkunen, T. Martma, D.N. Thomas and H. Kola

Some observations of high porosity layers and brine drainage features in first-year sea ice  179
D.M. Cole, H. Eicken, L.H. Shapiro and K. Frey

Sea ice strength during the melt season  187
G.W. Timco and M.E. Johnston

Temperature changes in first year Arctic sea ice during decay process  194
M.E. Johnston and G.W. Timco

Ice strength information in the Canadian Arctic: from science to operations  203
M-F. Gauthier, R. De Abreu, G.W. Timco and M.E. Johnston
Analysis of sea ice floes in the Sea of Okhotsk using ADEOS/AVNIR images
T. Toyota and H. Enomoto

Ship-based sea ice observations in Lützow-Holm Bay, East Antarctica
S. Uto, H. Shimoda and K. Izumiyama

Banding in McMurdo Fast Ice
V. Verbeke, J.-L. Tison, H.-J. Trodahl and T.G. Haskell

Modelling of refrozen cracks in sea ice
C. Petrich, P.J. Langhorne and T.G. Haskell

Modelling the evolution of draft distribution in the sea ice pack of the Beaufort Sea
T. Bellchamber-Amundrud, H. Melling and R.G. Ingram

ATMOSPHERE-ICE-OCEAN INTERACTIONS

Influence of the sea ice cover on geochemical cycles in the northern Baltic Sea
M.A. Granskog, H. Kaartokallio and T. Lakomaa

Sensitivity of modeled sea ice to external forcing and parameterizations of heat exchange processes
A.P. Makshtas, S.V. Shoutilin and V.F. Romanov

On the shortwave radiation parameterization in thermodynamic sea ice models in the Baltic Sea
J. Ehn, K. Rasmus, M. Leppäranta and K. Shirasawa

Monte Carlo modelling of sea ice beam-spread data
P.E. Bond

Simulation of sea ice in the Bohai Sea with an ice-ocean coupled model
Jie Su, Huiding Wu, Hai Li and Qinzheng Liu

Nonlinear phenomena in resonant excitation of flexural-gravity waves
A. Marchenko

On the excitation of shelf edge waves due to self-induced oscillations of ice floes
A. Marchenko, A. Makshtas and L. Shapiro

Large amplitude periodic waves beneath an ice sheet
G. Hegarty and V.A. Squire

Ice-coupled waves at a deep water tide crack or ice jetty
T. Williams and V.A. Squire
Empirical formula of dispersion relation of waves in sea ice
S. Sakai and K. Hanai 327

Simulation of pancake ice dynamics in a wave field
S. Frankenstein, M. Hopkins and H. Shen 336

Simulating ice floes in the MIZ using stochastic simulation
M.H. Meylan 344

Sea ice dynamics in Baltic Sea basins
M. Lepparanta and Keguang Wang 353

Modelling sea ice deformation with a viscous-plastic isotropic rheology
J.K. Hutchings and W.D. Hibler III 358

Modes of variability of Arctic sea-ice motion from 1949 to 2000
P. Heil, J.K. Hutchings and W.D. Hibler III 367

The impact of sea ice on the periodic shallow water dynamics in the
Laptev Sea (Siberian Arctic)
I.A. Dmitrenko, J.A. Hölemann, S.A. Kirillov, S.L. Berezovskaya,
D.A. Ivanova, H. Eicken and H. Kassens 375

Transport of bioenergy by large scale Arctic ice drift
C. Arndt and O.J. Lønne 382

Stability of sea ice dynamics models
R.S. Pritchard 391

Underside profile and drift characteristics of sea ice on the Japanese coast
of Okhotsk Sea
Y. Yamamoto, M. Sakikawa, D. Honma and Shinji Kioka 399

AUTONOMOUS MEASUREMENTS

Sea ice classification of ERS-2 SAR images based on a nested-correlation
ice-tracking algorithm
J. Haarpaintner 407

Improved Antarctic ice surface temperature algorithm for application to
AVHRR data
K.L. Hill and K. Michael 415

In situ sea ice stresses in the Western Arctic during the winter of 2001-
2002
J.A. Richter-Menge, B. Elder, K. Claffey, J. Overland and S. Salo 423
ICE FORECASTING

Long range ice forecasting techniques in the Canadian Arctic – initial verification
M.-F. Gauthier and J.C. Falkingham

A sea ice forecast model for the Arctic Ocean
J. L. Lieser and P. Lemke

24-Hour forecast verification of the operational “Polar Ice Predication System”
M.L. Van Woert, Cheng-Zhi Zou, W.N. Meier, P.D. Hovey and M. Chase
